Policy Enforcement

Standards of Conduct The unlawful possession, use or distribution of alcohol and illegal drugs by students and employees on college property or while engaged in College activities off the College campus is prohibited. While the College permits the lawful use of alcohol by students and guests on campus in accordance with the College alcohol policy (see following section), any abuse of this privilege will be subject to College disciplinary action and/or appropriate criminal sanctions.

Institutional Sanctions Members of the College community who violate these policies will be subject to discipline via the Student Code of Conduct. Taking into account the circumstances of each case, sanctions for students may range from warnings to expulsion from the College, and sanctions for faculty and staff members may range from warnings to termination. At the discretion of the College, as an alternative to, or in addition to any disciplinary action taken, students or employees may be required to participate in and to complete satisfactorily an appropriate counseling or rehabilitation program. Records of such discipline may be maintained in a student's record or an employee's personnel file. Enforcement of these sanctions will be through the College's existing disciplinary procedures for students, faculty, and staff, as appropriate. The College reserves the right to require that a student participate in random drug testing, at their own expense, as part of a sanction for being found responsible for a violation of this drug policy and/or if there is reasonable evidence to suggest illegal drug use/abuse. Recognition that no two circumstances are identical, the College provides tables that outline guideline for sanctions for standard violations. Actual sanctions may vary based on the situation and nature of the infraction. A list of sanctions, level 3 can be found in the Appendix Part III.
