

Final Guidance on Consideration of Greenhouse Gas Emissions and the Effects of Climate Change

Under NEPA, Federal agencies are required to consider and disclose the potential effects of their actions and decisions on the environment. In many cases, Federal actions have the potential to contribute to climate change by producing greenhouse gas emissions or alternatively, be affected by many of the impacts of a changing climate, such as rising sea levels, extreme weather, drought and wildfires. A final guidance released last month provides a level of predictability and certainty by outlining how Federal agencies can describe these impacts by quantifying greenhouse gas emissions when conducting NEPA reviews. This increased predictability and certainty will allow decision makers and the public to more fully understand the potential climate impacts of all proposed Federal actions, and in turn, assist agencies in comparing alternatives and considering measures to mitigate the impacts of climate change. <https://www.whitehouse.gov/the-press-office/2016/08/02/fact-sheet-white-house-council-environmental-quality-releases-final>

Green Infrastructure and Climate Change

EPA released “[Green Infrastructure and Climate Change: Collaborating to Improve Community Resiliency](#)”. As different parts of the country become drier, wetter or hotter, community leaders and citizens are looking to green infrastructure to improve their community’s resiliency to the effects of climate change. In 2015, EPA convened charrettes, or intensive planning sessions, in four cities to demonstrate how this type of planning could be applied to communities dealing with a range of challenges. Each city’s charrette focused on different issues based on the most pressing climate change impacts they were facing and their current level of green infrastructure implementation. This publication summarizes those issues and the recommendations developed by each charrette.

Tool for Sourcing Local Meat

A new website is available to help consumers locate local farmers who produce meats. You will be able to connect with local producers to choose the growing practices that suit your lifestyle and help support the regional economy. Visit the tool at <http://meatsuite.com/>

We Are NY Video Series

To celebrate the 50th anniversary of the National Historic Preservation Act on 1966, the New York State Office of Parks, Recreation and Historic Preservation created a series of short videos featuring personal stories about historic places, including [Elmwood Village in Buffalo](#), [Rock Island Lighthouse State Park in the Thousand Islands region](#) and the [Underground Railroad History Project in Albany](#). Each video captures the strong emotional connections that New Yorkers have to their hometowns and heritage.

Food not Bombs

Buffalo Food Not Bombs prepares shares a free vegan meal with anyone who is hungry at Lafayette Square on Mondays and Saturdays from 1 to 2 p.m. Volunteers are ALWAYS welcome! Food Not Bombs shares food as a form of political protest, drawing attention to the fact that society fails to provide food and housing for all people, while hundreds of billions of dollars are given to fund wars and state violence. For info, [foodnotbombs](#)

Hemlock Woolly Adelgid Educational Video

The New York State Hemlock Initiative is sharing an educational video to inform the public about their efforts to conserve New York State’s hemlock resources in the face of multiple threats, particularly that posed by an invasive pest, the Hemlock Woolly Adelgid. Mortality due to Hemlock Woolly Adelgid (HWA) in New York has increased at an alarming rate recently. For info, visit [here](#). View video at <https://www.youtube.com/watch?v=AupnMjYa10Q>

Change Food Video Library

Change Food is pleased to announce the official launch of [The Change Food Video Library](#). The Library consists of a growing database of the best short-length videos on various topics in food and farming, including talks from Change Food, The Real Food Media Project, TED, TEDxManhattan and other TEDx events. The Library has also developed an online event guide to help anyone around the world organize and host their own video event, whether it be a lunch time video club or an all day extravaganza.

USDA Toolkit to Assess Economic Impact of Local Foods

This new USDA toolkit will help communities and businesses evaluate the economic benefits of investing in local food systems. It was developed by the Agricultural Marketing Service (AMS) to help communities reliably evaluate the economic impact of investing in local and regional food systems. The Local Food System Toolkit provides detailed guidance in seven modules to measure and assess the expected economic impacts of local food investments. The toolkit can be downloaded as a PDF [here](#).

Launch of the Bats for the Future Fund: Slow the Spread of White-Nose Syndrome

The U.S. Fish and Wildlife Service (USFWS) and the National Fish and Wildlife Foundation (NFWF) have created the Bats for the Future Fund, a competitive grant program that will fund the development of treatments for white-nose syndrome (WNS) to promote the survival of bats in North America. USFWS has pledged \$1 million to seed the fund, which will annually pool public and private dollars to support existing and new disease treatments and tools against WNS.

More than 6 million bats have died over the past decade from WNS. In some sites, up to 100 percent of bats have disappeared. Since signs of the disease were first observed in New York state in 2006, WNS has spread rapidly from the Northeast to the Midwest, Southeast and eastern Canada. The disease is caused by a cold-loving fungus that attacks hibernating bats. More than half of the bat species in the United States and Canada hibernate to survive the winter and are potentially susceptible. Without a solution, several bat species may be in danger of extinction. Bats play key roles in nature while also providing important benefits by controlling insect pests. Recent studies estimate that bats eat enough pests to save the U.S. corn industry alone more than \$1 billion a year in crop damage and pesticide costs, and more than \$3 billion per year to all agricultural production.

Clean Power for All

Join the Recycling Pledge

Make the commitment to raise Buffalo's recycling rate from its current 26% to 34% (national average) or more. Interested in pledging? Please visit www.buffalorecycles.org for resources to help you recycle your materials. You may win the 34andMore T-Shirt too!

EPA Environmental Justice Strategic Plan for 2016-2020

The U.S. Environmental Protection Agency has released its Environmental Justice 2020 Action Agenda (EJ 2020) plan for 2016 to 2020. Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. EPA's goal is to provide an environment where all people enjoy the same degree of protection from environmental and health hazards and equal access to the decision-

Solar City and Tesla Announce Solar Roofs

Elon Musk, Tesla CEO, recently announced that Buffalo's new Solar City facility will be producing materials for an integrated solar roof. Unlike a traditional roof-mounted solar panel array, which lays over an existing roof covering (like tiles or shingles), the integrated system has the photovoltaic cells embedded right into the roof covering. This product is ideal for homeowners that already need to upgrade their roofs or want a roof that looks more attractive.

Oak Wilt Detected in Canandaigua

The New York State Department of Environmental Conservation (DEC) announced today that oak wilt, a tree fungus that causes disease in oak trees, has been detected in Canandaigua, Ontario County. This is the third location in New York State where oak wilt has been confirmed and the second location discovered in 2016. Oak wilt is a serious tree disease in the eastern United States, killing thousands of oaks each year in forests, woodlots, and home landscapes. Oak wilt is caused by the fungus, *Ceratocystis fagacearum*, which grows in the water-

Buffalo Niagara Riverkeeper and East Hill Foundation Announce Partnership

Buffalo Niagara Riverkeeper and the East Hill Foundation have forged a new partnership to offer environmental education programs in Niagara County, based out of the East Hill Foundation's lighthouse facility. Through this partnership, Buffalo Niagara Riverkeeper will offer expanded watershed tours, educating the community about Ellicott Creek, Tonawanda Creek, and the Niagara River. They will also offer more opportunities to participate in their long-standing RiverWatch water quality testing program, and offer additional class sessions of River Academy, a field-based training series that provides an introduction to our Niagara River watershed through weekly classes in stream science, environmental stewardship, and hands-on learning experiences.

Cornell Small Farms Program Offers Online Courses

The Cornell Small Farms Program offers over twenty courses to help farmers improve their technical and business skills. Students connect with other farmers, work on farm plans, and gain practical tips without leaving their home. Most courses are six weeks long. Each week features an evening webinar and follow-up readings, videos, and activities. Students and their instructors connect through online forums and live chat. If you aren't able to attend the webinars in real-time, they are always recorded for later viewing. Courses include: Berry Production, Soil Health, Woodland Mushroom Cultivation and more. Check the listings at <http://www.nebeginningfarmers.org/online-courses/> for more information on a particular course and the instructors.

Pacific Institute for Climate Solutions Offers Online Climate Courses

Climate Insights 101 is a short course series designed to provide users with an in-depth understanding of climate science and related issues. Climate Insights 101 is produced as a series of modules, each with several animated lessons. To learn more, visit: [courses](#).

New Federal Toolkit Provides Guidance for Citizen Science Programs

The recent Open Science and Innovation Forum at the White House launched the release of the Federal Crowdsourcing and Citizen Science Toolkit. The Toolkit provides guidance for federal agencies to design, carry out, and manage citizen science projects. [Learn more about the new toolkit.](#)

Environmental Working Groups Guide to Healthy Cleaning

Environmental Working Group's Guide to Healthy Cleaning now provides detailed information on more than 2,500 products, letting you easily find out about the health hazards and ecological concerns associated with the thousands of chemicals in cleaners. Check it out at [_____](#) You can also download their app.

Become a Watershed Sleuth

EPA and the National Environmental Education Foundation announced a new resource for students to learn how to help solve water quality problems— by becoming a Watershed Sleuth! Students and citizen scientists can try to build their own aquifers and take an online interactive quiz to find local water wasters. Children, families, K-12 school groups, and others can earn a different digital badge for each lesson they complete and show off their watershed knowledge. [Start the challenge today.](https://www.neefusa.org/watershed-sleuth) (<https://www.neefusa.org/watershed-sleuth>)

Bird App Available

Audubon has released an updated version of the [Audubon Bird Guide app](#) and it's now free to bird lovers nationwide. With 821 species profiles and 3200-plus world-renowned bird photos, Audubon's award-winning app instantly turns any mobile device into the most trusted field guide in North America. To download the Audubon Bird Guide, go to: www.audubon.org/apps. The free app also provides a great new way to engage more people in becoming active participants in conservation action. [Find a toolkit](#) of resources on Audubon Works to help you share the free app with your members and supporters. The toolkit includes tips and tricks for using the app, email and social copy and images, ecards, a poster, and a captivating video.

[Flipside Science](#) is a youth-powered series that tackles complex environmental topics and empowers viewers to make a difference. This engaging and upbeat collection of videos, hosted by California Academy of Sciences youth, explores how local communities are addressing environmental problems with solutions ranging from vertical farming to greywater recycling.

[Sustainability in Schools Simulation Game](#)- The Education for Sustainability program has designed a simulation game to show how to identify sustainability related projects that make financial sense and weave them together into a coherent strategy that takes advantage of synergies. It also shows how to use those projects in curriculum.

[SMILE: New STEM Activities for Educators](#) is an award-winning, free access collection of nearly 4,000 STEM education activities.

Grant and Scholarship Opportunities

[EPA Rural Advantage Program – Technical Assistance](#) is offering technical assistance to rural communities to develop strategies that help grow the economy and revitalize downtown neighborhoods. EPA is offering three programs: 1) Local Foods, Local Places (LFLP), which helps communities leverage local food enterprises to diversify their economy and renew their downtowns, 2) Cool & Connected, which helps communities use broadband service to create walkable, connected, economically successful neighborhoods, and 3) Healthy Places for Healthy People, a new program that will help communities partner with health care facilities to catalyze downtown revitalization and to improve options for healthy living and economic opportunity. For more information, visit the [news release](#). Deadline: **November 6**.

[USDA Agriculture and Food Research Initiative](#) focuses on the priority to mitigate and adapt to climate variability and change. It supports activities that reduce greenhouse gas emissions, increase carbon sequestration in agricultural and forest production systems, and prepare the nation's agriculture and forests to adapt to variable climates. The long-term outcome for this program is to reduce the use of energy, nitrogen fertilizer, and water by ten percent and increase carbon sequestration by fifteen percentariaJTJETQ4555.15 Tm0 g0 G{t-1-10(l)5(y)-8(z)8(e)8()JTJET

Buffalo Talks-Noon at Central Library Buffalo. Not for Profit Panel with Guest Speakers: Stuart Harper – City Mission, Marylou Borowiak – Food Bank of WNY, Thomas Lynch – Goodwill, Tara Ellis – Meals on Wheels. Representatives from the City Mission, Food Bank of WNY, Goodwill and Meals on Wheels will give background information on their respective organizations, their missions, and relate how the community can become involved in their charities. Free but please [register](#).

Beast Feast- 10:00 a.m. – 12:00 p.m. Buffalo Zoo workshop. We aren't the only ones who like to celebrate Thanksgiving! Come learn how we prepare feasts for our Zoo animals. The workshop starts off with a study on how delicious food can be with a light continental breakfast. Then we explore animal diet and nutrition, observe animals enjoying their breakfast, and go behind-the-scenes to take a peek at the Zoo's specialized diet prep kitchen. \$25/\$30 (nonmember). [register](#)

Chestnut Ridge Conservancy 5th Annual Gala- 6:00 pm - 10:30 pm, \$125. 5th Annual Chestnut Ridge Conservancy Gala at the Orchard Park Country Club. This magnificent event is the primary fund raising event for the Conservancy. Sponsorships are available at various levels. Inquiries should be addressed to info@ChestnutRidgeConservancy.org. To purchase tickets to the gala, either call John Bailey at [716.662.0236](tel:716.662.0236) or buy them below.

Sunday, November 6

Exploring Sinking Ponds -10:00am-12:00pm at Sinking Ponds Sanctuary, East Aurora. Sharing the seasonal ecology of local ponds and mature forests. Cost \$5/\$7 (non-members). Register at <http://earthspiritedu.org/events.html>

Family Hike: Ellicott Creek Park- Family adventure with a morning hike from 9-11am. Dress for the weather! Cost is \$10.00 for a family and will include your guided trip and snacks. Your adventure is presented by the Paths, Peak & Paddles Guides and Instructors. www.pathspeakspaddles.com

Community Class: Basic Wheel Maintenance-6 to 7pm. Join us at our community workshop. We will cover hub overhauling and adjustment, wheel truing, and how to fix a broken spoke. Practice wheels will be available to work on but participants may also bring their own wheels. Please RSVP to Stacy Sauvageau at stacy@gobikebuffalo.org. A \$10 donation is suggested for our Sunday classes.

Monday, November 7

Toward a Sustainable Buffalo: Public Lecture Series – Buffalo State Graduate School in collaboration with Open Buffalo and the Institute for Community Health Promotions will host "Taking Action on Economic, Environmental, and Climate Sustainability," from 6-8pm (2nd part on Monday, December 5). The series will feature community experts who will provide information about sustainability issues in our

Little Tykes Mini Nature Camp-9:30am - 11:30am. Enjoy a morning of fun and exploration at Tiff Nature Preserve! Nature story-time, crafts, outdoor investigation and more help to foster the nature explorer in your child. Healthy, kid-friendly snacks provided! Pre-registration required for ages 3-5. [register](#), \$8 per child with adult, \$4 additional child with same adult. BMS Members save 10%.

Adirondack Mountain Club General Membership Meeting –starts at 6:30pm at Fellowship Hall - Amherst Community Church, 77 Washington Highway, Snyder NY 14226. Please park in rear and enter through back door. Walk up to the 2nd floor. Education Workshop: “The Ten Essentials” - Presented by Bob Van Hise (6:30-7:15pm – meet adjacent to the main meeting room). Presentation: “Water Matters” - Presented by Erin Redding, Environmental Scientist at Gomez and Sullivan Engineers, PC. Summer may be a recent memory, but those who enjoyed western New York’s many waterways these past few months can appreciate Erin Redding’s work in Buffalo.

Introduction to Meat and Dairy Goats-6pm – 8pm; \$5/family. This introductory workshop will cover the care, basic nutrition, common diseases, and marketing outlets for goat products of the most common breeds in the US – a perfect workshop for the homesteader or beginning farmer interested in raising goats. Kate Ewer, a crazy goat lady whose love for goats began as a 4-H youth fifteen years ago, will lead this workshop. She has experience with dairy, meat, and working goats and now keeps a few Boer Does for a hobby. Pre-registration is required at www.cce.cornell.edu/chautauqua/leaf1617 at least 3 days prior to the workshop

Thursday, November 10

After-School Escape- 4:30 to 5:30 p.m. Together, kids and their parents or caregivers can enjoy a different, fun, hour-long outdoor activity. For children in grades K-5. No registration required. Reinstein Woods Nature Preserve, Depew.

Wellness Walk at Tiff Nature Preserve-10:00am - 12:00pm. Enjoy the fresh air and the sights and sounds of the season with a healthy, guided outdoor walk on our trails! Please call 716.825.6397 to confirm walk will be taking place. \$2 donation per person appreciated.

PUSH Building Blocks Breakfast Fundraiser-8 to 9am at Temple Beth Zion, 805 Delaware Ave. Come learn about the work that PUSH Buffalo has been doing with West Side residents to transform a twenty-five-square block district known as the Green Development Zone (GDZ). A neighborhood that once faced an epidemic of vacant housing and declining economic and social conditions is being revitalized by an array of green affordable housing rehabilitation projects, community-based solar and geothermal installations, urban gardens and job training programs leading to living-wage careers in weatherization and green construction. **RSVP:**
